Plan Design Considerations for Accessing Care

	Live in WV or a Border County	Live Outside WV and Border County
Access care in WV or PPO provider in border counties	20% coinsurance No prior authorization	Same
Access care at PPO providers beyond border counties	30% coinsurance Prior authorization required	30% coinsurance No prior authorization
Access care at non-PPO provider	No coverage unless prior authorized by HealthSmart or emergency care.	

- * Precertification is required for out-of-state admissions and a number of in-state and out-of-state services. Please see PEIA Summary Plan Description for details.
- * Non-state plans will have some coverage differences.

Provider Contracts

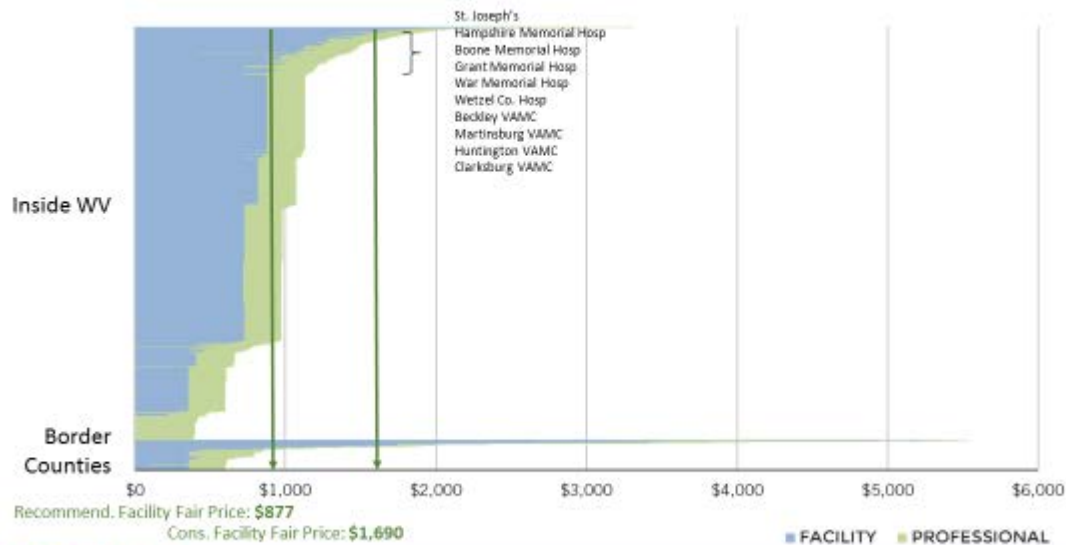

- In West Virginia
 - No contracts. All providers who accept a PEIA patient are covered by PEIA statute requiring provider to accept PEIA fee schedule and only bill patient for deductible, copay and/or coinsurance.
- Border Counties
 - Aetna network except in Washington County, Ohio or Boyd County, Kentucky.
 - Direct HealthSmart contracts.
- Remaining US
 - Aetna Network except Cuyahoga County, Ohio
 - Direct HealthSmart contracts with Cleveland Clinic and University of Kentucky Medical Center.

Who is Healthcare Blue Book?

- Provides a price transparency website accessible through HealthSmart's myHealth logon for PEIA members.
- Data Analytics - utilizes PEIA data and determines "fair price" for 140+ common outpatient procedures. Examples are:
 - Colonoscopy
 - Echo Cardiogram
 - Knee and hip replacement
 - Cardiac perfusion imaging
 - CT scans and
 - MRI's
- Quality measures through Healthgrades
- Physician Demographic Information

New for HCBB Plan Year 2017 – Facility Fee Limit

- PEIA establishes a maximum amount it will pay for the facility fee for selected outpatient procedures.
- Virtually all in-state facilities will be green. Because of in-state payment statute there will be no additional cost to members.
- Many out-of-state facilities will be red. If the facility fee limit is below the network contracted rate the facility may bill the member the difference. For example, if the facility bills \$20,000 for a hip replacement and the facility fee limit is \$7,500 the member could owe \$12,500 plus deductible and coinsurance.
- This change does not affect payments made to physicians.
